

Dear Families,

Welcome to the 2023-2024 school year! My name is Nicole Lee and I am looking forward to being your child's teacher this year! I have a Bachelor's degree in Early Childhood Education and a Master's Degree in Early Childhood Education and Special Education. I have been with the Twinkle program at Metzenbaum since February 2018, but this will be my fourth year as an Intervention Specialist in the Twinkle program and I absolutely love it! When I am not teaching I am spending time with family, friends, and enjoying the outdoors. I also recently got married in June 2023 ☺

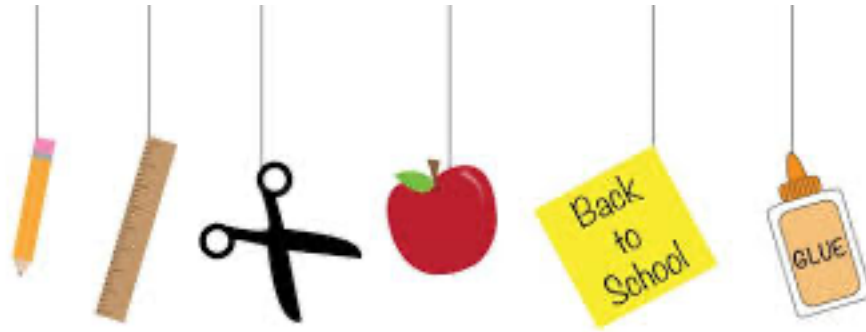

I strive to provide a safe, positive and caring environment for all of my students and their families. I love to learn, engage and have fun with my students with hands on learning through play, exploration and modeling. I create a structured day for my students with visuals, routines, positive reinforcement, prompting and modeling that best fits each child and their needs. I have a group of supportive paraprofessionals that I work alongside, which help me to provide my classroom and students with the supports needed.

I believe that parent-teacher communication is extremely important in your child's education and development. If you have any questions or concerns please don't hesitate to reach out to me via email, call or text, I will provide my information below. I look forward to meeting all of you, my new students, and seeing all of my previous students again for another great year!
