

Dear Preschool Families,

Welcome to the 2024-2025 school year! My name is Nicole Lee and I am looking forward to being your child's teacher this year! Just a little bit about me... I recently got married in June 2023. When I am not working I am relaxing at home, or enjoying time with my family and friends. I have a Bachelor's degree in Early Childhood Education and a Master's Degree in Early Childhood and Special Education. I have been with the Twinkle preschool program since February 2018. I started off working as a paraprofessional in the Twinkle classrooms, until I moved my way up to being an Intervention Specialist for the past 4 years! The Twinkle program has grown so much since I have been here, and I can't wait to see what this year brings us. I have loved working in this program, and working with so many great kids and their families.

I strive to provide a safe, positive and caring environment for all of my students and their families. In my classroom we do a lot of hands-on learning, exploration and play based learning. I aim to create a structured day for my students with visuals, routines, positive reinforcement, and modeling that best fits each child and their needs. I have an amazing group of supportive paraprofessionals and therapists that I work alongside to help support our classroom and all of the students' academic and developmental needs.

I believe that parent-teacher communication is extremely important in your child's education and development. If you have any questions or concerns please don't hesitate to reach out to me via email, phone call, text or the Remind app. The Remind app is a great way for me to relay important group information to parents all at once (information coming soon on how to access this). I look forward to meeting all of you, my new students, and seeing some of my previous students again for another great year!
