***Purpose of the Course:***

The purpose of the job training program is to provide a work environment where students can practice employability skills and learn job tasks in the community.

This elective course offers half and full day work experience for students who are ready to practice their employability skills at a community job site along side paid employees. Students who work a full day have met all academic requirements.

Students work at different job sites throughout the school year. These job sites are determined by the employers needs and the results of the student's age appropriate transition assessments.
